Continuing Education

Dr. Bietenholz attended the Master Series Implant Seminars four weekends this summer in Miami. Eight days of continuing education included advanced training in complex bone grafting to prepare patients for dental implants. This is the third advanced training seminar taken by Dr. Bietenholz for dental implant procedures.

Dr. Garrett attended the American Academy of Cosmetic Dentistry in San Francisco in May. The courses he attended focused on the newest technologies, materials, and methods in the area of cosmetic dentistry.

Dr. Garrett and our Office Manager Teresa Spence attended the American Association of Dental Office Managers Conference in Nashville in August. Teresa has been committed to bringing to our office the best resources available in our field for dental office management and customer service.

Dr. Kitson and our team of dental hygienists attended the seminar Common Oral Diseases and Radiographic Interpretation given by experts in the field Dr. Langlais and Dr. Miller. Dr. Kitson also continued her Invisalign training by attending another Invisalign Education Course on Transparent Removable Orthodontic Appliances.

Our Front Office Team and Dental Assistants attended a course in June with national speaker Lisa Spradley, FAADOM. They will also be attending the National Dentrix Convention in Orlando for advanced training in our dental software system.

Mission Trip:

Dr. Garrett spent an amazing week in June on a mission trip in San Cristobal, Dominican Republic. He spent the week at a boy's orphanage doing dentistry for boys who lived there. He also provided care for girls at an orphanage down the road, as well as for people in the local community. It was a lot of hard work, but he feels absolutely blessed to be able to have met all the wonderful children and people of San Cristobal.

Cosmetic Case Before and After:

This lovely 70 year old female is finally ready to get the smile she deserves. She wasn't happy with the appearance of her smile due to the excess of gums showing, as well as the color and shape of her teeth. Dr. Garrett paired up with Periodontist Dr. Michael Fetner in Jacksonville to do esthetic gum contouring, which allowed him to be able to give her a brand new, beautiful, and natural looking smile with cosmetic dentistry.

If you've ever been curious about cosmetic dental work, please call to schedule a free consultation with one of our talented dentists.

Dear Patients,

It is with fond memories and great sadness that I inform you of my leaving Amelia Dental Group in January 2016. I would like to take this opportunity to thank you for your trust and confidence in permitting me to take care of your dental needs over the past 20 years.

Because Amelia Dental Group is a talented and caring team, I know your dental care will always be world class.

I have been blessed with success in dentistry and my families' medical waste business, Bio-Cycle LLC, and would like to take some time to plan my next adventure. My family and I will pursue other interests in South Carolina. We will miss this wonderful Island and all the wonderful people.

Sincerely,
Rob Van Etta

New Team Members

We are pleased to welcome the following new employees to our Front Office Team. Lauren Jordan is now serving as our Hygiene Coordinator and Courtney Haddock is our New Patient Coordinator. We are very excited to have these bright and enthusiastic women join our dental practice.

Appointment Confirmations and Reminders:

Last minute reminders have been a great hit! You will receive a last minute reminder via text prior to your appointment. Appointment reminders will be sent out via e-mail and/or text. To confirm your appointment via e-mail simply click the box "Yes I will be there". To confirm your appointment via text simply text back the letter "C". Should you have any questions or simply prefer not be contacted via e-mail or text please e-mail us at hygiene@ameliadental.com or call 904-261-7181 and Lauren will be glad to assist you in your preference for confirmation calls.
